QUALITY MANAGEMENT POLICY ULJANIK JSC

1. The collaboration with the Buyer is established on the basis of partnership and trust, understanding and acknowledging his needs, mutually finding the best solutions, as well as consistently respecting the agreed business relationship, which will result in the delivery of ships in due time, as per contracted quality, and with the best correlation between added value and invested capital.
2. The developing of professional and partner relationships with state and society institutions, employees and business partners are based on enforcing the law, business customs and business ethics.
3. The application and continuous effectiveness improvement of the integrated management system which, through the constant development of technology and production processes, accepts laws on the nature and environment protection as well as rational use of natural resources for the benefit of present and future generations.

Pula, 01. October 2014.

**President of Management Board
Gianni Rossanda, B.Sc. Econ.**
